ZAMBIAN TOUR OF THE FALLS

Days - Daily

Minimum/ Maximum participants - Minimum One / Maximum N/A

Departure - On Request

Duration - 2 hours

Language - English (French, German, Italian & Spanish available on private tours, at supplement cost - subject to availability)

Highlights - To discover how the Falls were formed and what local customs and traditions surround them it is well worth booking a guided Wild Horizons tour of the Falls. Described by the Kololo tribe living in the area in the 1800's as 'Mosi-oa-Tunya' - 'the Smoke that Thunders' and in more modern terms as 'the greatest known curtain of falling water', Victoria Falls are a spectacular sight of awe-inspiring beauty and grandeur on the Zambezi River, bordering Zambia and Zimbabwe. A path along the edge of the forest provides the visitor who is prepared to brave the tremendous spray (at certain times of the year) with an unparalleled series of views of the Falls. One special vantage point is across the Knife edge bridge, where visitors can have the finest view of the Eastern Cataract and the Main Falls as well as the Boiling Pot where the river turns and heads down the Batoka Gorge.

Other van

tage points include the Falls bridge and the Lookout Tree which commands a panoramic view across the Main Falls. Different times of the year will provide completely different experiences of the Falls region. Peak flood season is around March and April and the full power of the falls can be experienced in all its glory. As the floods abate the view of the falls gets better and better through the year, but at its lowest, around November and December the Falls become little rivulets running over the edge and in some places along the 1,7km width no water falls at all. Please note: During this time, it is recommended guests book a tour of the falls on the Zimbabwean side.

Departure - To be confirmed locally

Duration - 2 hours

Language - English (French, German, Italian & Spanish available on private tours, at supplement cost - subject to availability)

Victoria Falls is one of a very limited number of sites around the world, which are known for the occurrence of moon bows. The lunar rainbow is a spectacular event that can be seen only during the full moon. The Lunar rainbow tour is conducted over a period of 3 days, during full moon at the Victoria Falls. Guests will be accompanied through the Rainforest by a guide who will give a brief history of the Falls themselves as well as other points of interest. Guides are also happy to assist guests with photographs whilst visiting this most spectacular of waterfalls. Raincoats are provided when needed.

ZAMBIA: Please bear in mind that at its lowest (around November and December) the Falls become little rivulets running over the edge and in some places along the 1,7km width no waterfalls at all. The lunar rainbow will not be visible from the Zambian side of the falls during this period.

LIVINGSTONE ISLAND Maximum of 16 guests on the island at a time

Dr. David Livingstone was paddled in a dugout canoe through swift rapids towards the roar and rising cloud of mist suspended above a cliff over which the whole of the Zambezi River plunged. The Makololo paddlers skillfully landed him on 'Goat Island' (now Livingstone Island) right on the lip of the chasm. A few steps through the small rainforest and, on the 16th November 1855, he gazed upon one of the most spectacular sights in the world - 'Mosi-oa-Tunya' (The Smoke that Thunders) which he named after his Queen as The Victoria Falls.

Livingstone Island is a 5-8 minutes boat ride from the Royal Livingstone Hotel and is located in the middle of the Zambezi River, touching the lip of the Victoria Falls, where the water thunders down the 103m drop. Access to this unique Island is seasonal and depends entirely on the water level in the Zambezi River. All visits to the island are during the 'low water' season, which usually begins in mid July and goes through to the end of January. High water visits are not possible as the island is continuously covered in the spray/downpour from the Victoria Falls.

The trip includes a short guided tour of the island, viewing the Victoria Falls and a light snack depending on the time of the morning visits.

VICTORIA FALLS RIVER SAFARI

Days - Daily

Departure Times - Breakfast Cruise: 08:00 Hours pick up Lunch Cruise: 11:30 Hours pick up Sunset Cruise: 15:30 hrs pick up in winter / 16:00 hrs pick up in summer**

Winter Dates are 1st May - 31st July

Summer Dates are 1st August - 30th April

Highlights - Victoria Falls River Safaris offers you an excellent, personalized and environmentally friendly upper river safari experience. The specifically designed water jet propulsion safari boats have the unique ability of crossing the numerous rapids along the upper Zambezi River comfortably. Due to the fact that there is no external propeller, these boats can operate in

water as shallow as 20cm. As a result, the operational range is substantially greater than any other powerboat service, extending from as close as 200 metres from the Victoria Falls to beyond the upper river lodges. "THE 4x4 OF THE ZAMBEZI RIVER" Pick up at the Day Activity Centre (Livingstone), drive to the launch site, board the boat and set off. Each lasts for 2 ½ hours. Return transfers from Livingstone town accommodation are included in the rate.

CANOE SAFARI

Probably the best way to appreciate the beauty, peace and wildlife of the Zambezi River above the Victoria Falls is to paddle slowly downstream in a canoe with some of the best wildlife guides in Africa. Watch the Pied Kingfisher hover and dive, listen to the haunting call of the fish eagle and the grunts of the hippo, see elephant, buffalo, and other animals come down to drink and explore the islands and waterways along the route. There is time to stop for something to drink and listen to tales of Livingstone's journey to the Victoria Falls

There are 5 ½ hour river safaris which begin in the morning and include tea, coffee, and soft drinks. A full day safari lasts 9 hours and includes a cold lunch with wine, soft drinks and beer. Guests are picked up from the Day Activity Centre at 08h00 and dropped off again at 13h30 for a half-day safari and 17h00 for the full day safari. Return transfers from Livingstone town accommodation are included in the rate.

WHITE WATER RAFTING UNDER THE SPRAY

This trip offers guests the chance to swim under the spray of the Victoria Falls themselves. Guests walk into the gorge at the usual start point and are then paddled across the Boiling Pot to right below the Falls where they have the chance to swim and enjoy the unique perspective from the bottom of the gorge.

This can be done on its own or followed by a standard rafting or riverboarding trip as below.

LOW WHITE WATER RAFTING

Low white water rafting runs from about mid July to the end of January. The best months are usually August and September.

A **full day** white water rafting trip includes 21 rapids, lunch and 9 ½ hours in the day, including the walk out of the gorge and the drive home.

A **half-day** white water rafting trip in the morning takes in rapids 1 – 10, breakfast, a light lunch and drinks for the climb out. The afternoon white water rafting trip includes lunch, rapids 11 – 21, and drinks for the climb out. Return transfers from Livingstone town accommodation are included in the rate.

Full Day - Pick up is from the Day Activity Centre (Livingstone) at 08h30 getting back at about 17h00.

Half Day in the morning: Pick up is from the Day Activity Centre (Livingstone) at 08h30 getting back at about 13h30.

Half Day in the afternoon: Pick up is from the Day Activity Centre (Livingstone) at 11h30 getting back at about 17h00

HIGH WHITE WATER RAFTING

High white water rafting runs from approximately the end of January to mid July. IF THE WATER IS TOO HIGH THE RIVER IS CLOSED FOR SAFETY REASONS - this usually happens between April and May but can last as long as up to July. Return transfers from Livingstone town accommodation are included in the rate.

Full Day - rapids 11 - 25: Pick up is from the Day Activity Centre (Livingstone) at 08h30 getting back at about 14h00. The 'full day' can end sooner than 14h00 hrs depending on how fast the water is running at the time.

RIVER BOARDING AND RAFTING

'Surf' the Zambezi River below the Victoria Falls on a body-board accompanied by an expert. Wild and exciting, these trips combine those rapids which can be 'surfed' on the board with the bigger ones which have to be ridden from the raft. These trips link in with the rafting schedules and itineraries. Return transfers from Livingstone town accommodation are included in the

rate.

JET-BOAT EXTREME

Pumping vast amounts of power from huge jet engines, these powerboats shoot down the rapids below the Victoria Falls at 100 km an hour. A thrilling half hour spent flying over the water and 'buzzing' rock faces between rapids 23 and 27.

The Jet Boat Extreme tour starts at the Day Activity Centre (Livingstone) and you are transferred by specially adapted Land-Rover vehicles (approximately 1 hour) to your entry point at the gorge. You meander down the gorge approximately 880 feet in a scenic cable car lift, where you meet your jet boat pilot for a briefing. Water and soft drinks are available. One of the most thrilling 30 minutes of your life is about to begin. After the ride, you no longer have to walk the 880 feet out of the gorge as you now board the cable car for the 8 minute ride out. Ice-cold beer and soft drinks await you at the top after which you are transferred back to the Day Activity Centre (Livingstone). Return transfers from Livingstone town accommodation are included in the rate.

The two departure times are 07h30 in the morning with guests returning to their accommodation by 12h00 & 12h30 in the afternoon with guests returning to their accommodation by 16h00.

JET-BOAT EXTREME WITH HELICOPTER

Ride the rapids in a jet boat then, instead of being lifted out of the gorge in the cable car, take a helicopter and complete an action packed day by flying up the river skimming the water under the shadows of the cliffs, rising out of the gorge for a quick look at the Falls before landing. As above, there are two departures a day and they include beer and cool drinks after the boat ride. Return transfers from Livingstone town accommodation are included in the rate.

Pick up is at the Day Activity Centre at 07h30 or 12h30 with a half an hour drive to the edge of the gorge.

FISHING

The Zambezi is famous for one of the great freshwater game fish - The Tigerfish. Powerful, swift predators Tigerfish are a thrill to catch and require a great deal of fishing skill with a good river specimen weighing over 15 lbs. Bream, or Tilapia, also live in large numbers in the river and although they don't fight quite as aggressively as the Tiger, a good 5 lb fish will quickly snap light tackle given half the chance. Spinners and lures are the most common method of catching these fish although using light tackle, a fly and a fly-rod is becoming very popular and brings an extra dimension to a very exciting sport.

Pick up is at the Day Activity Centre before a drive to one of the launch sites to board the boat and set off to the fishing grounds. A half-day trip either begins at 06h30 and ends at 13h30 or pick up is at 13h30 and drop off is at 18h30. The trip includes return transfers from Livingstone town accommodation, tea and coffee, soft drinks, beer and fishing tackle.

THE LIVINGSTONE DRIFT TOUR

The Livingstone Drift tour departs from the Sun International properties at 08h00. Guests are taken to Natural Mystic Launch Site in the Mosi-oa-Tunya National Park, where the trip

begins with a safety briefing before boarding the inflatable rafts. Each raft has its own guide who does all of the paddling while guests are invited to take in all of the sights and sounds. The Upper Zambezi River is regarded as FREE FLOW as a dam does not control it and as such the water is subject to seasonal variation. Floods begin in December and normally peak in April / May. Therefore, throughout the season the route varies as new channels open with the rise in water level. The Upper Zambezi has numerous heavily wooded islands, which are dissected by channels that may be several kilometers in length and vary in width from one to twenty meters.

The vegetation predominately consists of ebonies, water berries, palms and a tremendous variety of acacia and albizia. Any rapids encountered are small and at their peak are only classed as grade one, which is the easiest grade.

The rafts slowly meander their way down to the take out point with their informative guides pointing out animals, bird life and flora & fauna of interest. Animals, which may be viewed, include hippos, crocodiles, elephants, giraffe, rhino, and various antelope, as well as numerous bird species. The drift ends at about 10h30, still in the national park where the guests board open game drive vehicles for their drive back to their accommodation. Rates include return transfers within Livingstone town, park fees, soft drinks, mineral water and snacks.

WATER TAXI

Guests are collected at the airport and dropped at the African Queen Royal Landing. The River Safaris boat will slowly meander its way down to the Royal Livingstone, where the guests will disembark at the deck. The luggage will travel ahead. On return to the airport the guests go straight to the airport. Please bear in mind that a river taxi is dependent on water levels. They are closed between October & February as the boats cannot get through the rapids. Please note Road transfers to/from the African Queen Royal Landing are included in the rate.

CROC & SNAKE PARK TOUR

Guests have the chance to experience the Crocodile Farm and Snake Park on this tour. After arriving guests meet the guide and are given a safety briefing before proceeding to the exhibits where they may see the crocodiles and even hold a baby croc.

Feeding times for crocodiles are usually at 16h00. There are 4 pens which are fed on different days to ensure that guests have the chance to witness the feeding daily, including weekends. The snakes are housed in glass tanks and for the braver guests there is also the chance to hold some snakes.

MOSI-OA-TUNYA NATIONAL PARK GAME DRIVE

The Mosi-oa-Tunya National Park encompasses the Victoria Falls and stretches some 12 kms along the riverbanks of the upper Zambezi River. White rhino, buffalo, hippo, crocodile, giraffe, zebra and several antelope species flourish here. Elephant also often visit the park swimming back and forth across the river.

Game drives in open 4 x 4 vehicles with a knowledgeable guide set off in the morning and afternoon from the Day Activity Centre (Livingstone) and last about 3 hours. The early morning drive begins at 06h30 and the mid morning drive begins at 09h45. The morning Game Drives include tea, coffee and pastries. The afternoon Game Drive begins at 15h00 and includes soft drinks, beer and pastries. Please note Park Entrance Fees are not included in the Activity Rate except for Sun International guests.

The Mosi-oa-Tunya National Park is an UNESCO World Heritage site that is home to the mighty and spectacular Mosi-oa-Tunya — 'The Smoke Which Thunders' — known worldwide as Victoria Falls on the Zambezi River. The Mosi-oa-Tunya National Park stretches from the Songwe Gorge below the falls in a north-west arc along about 20 km of the Zambian river bank. It forms the south-western boundary of the city of Livingstone and has two main sections: a wildlife park at its north-western end, and the land adjacent to the immense and awe-inspiring Victoria Falls, which in the rainy season is the world's largest curtain of falling water. It extends downstream from the falls and to the south-east along the Batoka Gorges. The Mosi-oa-Tunya National Park boasts five White Rhino, Elephant, Buffalo, Giraffe, Zebra and various Antelope. Although small by African standards (1600Ha), this increases the chance of seeing game.

Guests are also shown some historic sites such as the Old Drift where the original white settlers lived before 1904.
