

Stop Managing Workarounds. Start Driving Profitability.

Transform Scheduling Into Your Competitive Advantage

Everything Your Team Needs, All in One Place

Consolidate airline planning, scheduling, slots, fleet, and analytics into one intelligent platform, replacing fragmented legacy systems and manual workarounds.

SCHEDULE PLANNING

Create and update schedules with embedded intelligence that considers operational feasibility, competitive position, and commercial impact.

SLOT MANAGEMENT

Automate slot requests, track utilization, and protect valuable airport access across IATA seasons.

CODESHARES

Quickly establish and easily maintain systems integration to minimize workload while ensuring that downline systems are seamlessly updated.

ANALYTICS

Embedded intelligence and a BI analytics engine provide schedulers with the insights they've always wanted within the scheduling platform.

GLOBAL SSIM

Instantly understand industry trends, competitors' actions, and route analyses to build a better, more competitive schedule.

GATE MANAGEMENT

Optimize the schedule for airport gate constraints, adjacency rules, and more, inside the system.

“

It used to take weeks of work. With Zulu we finished in just a few days with compliments from the slot coordinators on the improved quality of our submission.

-Zulu Customer

”

- ✓ Automated workflows handle maintenance routing, departure separation, schedule validation, SSIM publication, and report generation.
- ✓ Built-in OTP data, optimization algorithms, and what-if scenario tools help schedulers make better decisions faster.
- ✓ Changes in one area automatically update related functions means one source of truth.
- ✓ Schedulers evaluate changes based on commercial impacts and operational constraints simultaneously.

Why Choose Zulu?

Cost Efficiency

Stop paying for redundancy. Consolidate 4–6 systems into one platform.

Eliminate Multiple Subscription

Replace separate invoices for modules, and isolated databases with a single, affordable license.

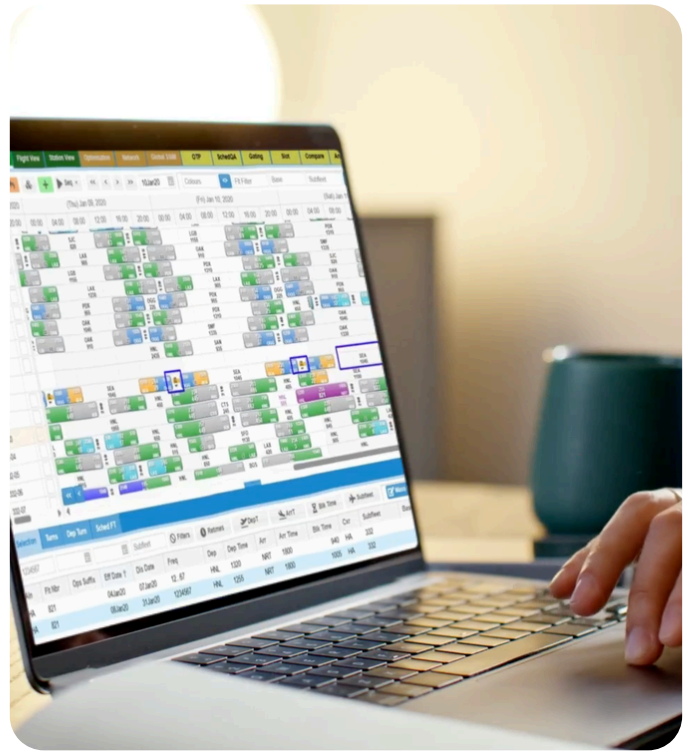

Reduce IT & Training Overhead

Lower training costs and IT expenses compared to maintaining multiple tools.

Strategic Decision Making

Evaluate changes based on booking patterns, revenue impacts, and competitors in the dashboard.

Proven, Across Every Airline Type

Enjoy support that solves problems starting on day one

Rapid innovation with no downtime or downtime risk

SOC-2, enterprise-grade security with automated backups

Expert support from industry veterans, within the hour

Fast, low-risk cloud deployment in weeks

Trusted by 50+ Customers
